JIAB- Laptop policy

Should a laptop be damaged, lost, or stolen the student or parent/guardian should immediately notify the school administration. At that time the parent/ guardian may be required to file a police report.

Parent/Guardian will be responsible for full replacement cost of laptop if not reported to JPS personnel within three (3) days of missing device or on the first day following a school holiday.

In the event that a laptop is damaged, lost or stolen the laptop user may be assessed a fee for the repair or replacement of the laptop. If the laptop is lost, stolen, or totally damaged as a result of irresponsible behavior, the parent may be responsible for the full replacement cost. Fees for lost/damaged devices are included in the JPS Technology Handbook and may vary annually and according to device.

In the event of a lost or stolen laptop and once a police report is filed, the Jackson Public School District, in conjunction and with police, may deploy location software which may aid the police in recovering the laptop. It is imperative that a lost or stolen laptop is reported immediately. If stolen/lost device is not reported within three days or the first day following a school holiday to District personnel, parent/guardian may be responsible for full replacement cost.

Supporting Evidence

Students who are financial unable to pay to receive a replacement laptop are unable to complete and submit their online classwork and therefore their grades will suffer

Do to the cell phone policy in jps students, who are not able to access a laptop are not able to complete the assignments on their phones in class

Closing Remarks

The JIAB- laptop policy should be revised to include options for families that are financial struggling to ensure students are receiving a quality education
